

This event is intended primarily for drivers who want to improve their car control skills for day-to-day driving, or to progress to driving at club track days at Wakefield Park or Sydney Motor Sport Park.

The Marulan Driver Training Centre (MDTC) has a relatively tight track used primarily for driver training events. The track is well suited to MX-5s, and speeds at MDTC are similar to those on public roads, with 100 km/h being the top speed that most MX-5 drivers would achieve at the track.

No timing will be performed at this event, as it intended to be a training day, and not for competition against other drivers.

Event Registration

Registration will commence at 8.00am. You will need to show your valid competition licence (CAMS, AASA or MDTC) or alternately purchase a licence as detailed below. At registration please indicate if you are sharing a car with another driver at the event.

All drivers must register for the event and complete a MDTC indemnity form and (if not already holding a competition licence) purchasing a MDTC licence.

Any person wishing to be a passenger must also register at the event, by completing a MDTC indemnity form and (if not already holding a competition licence) purchasing a MDTC licence.

A copy of the MDTC indemnity form shall be made available for completion prior to registration.

Licensing Requirements

For those who don't already have a competition licence, you have 3 licensing options:

- **MDTC licence for \$40 which can be purchased on the day at the track.** This licence is valid for 12 months and covers events at the MDTC venue.

Or, you can apply for the following **at least 4 weeks prior to the event** (to allow for processing and delivery of the licence):

- **AASA Club Licence for \$50.** This licence is also valid for 12 months, and in addition to MDTC events, is also valid for MX-5 Club track days at Wakefield Park.

Assistance/Advisers

A number of club members with competition experience have volunteered their time to provide in-car advice. Drivers are not required to have an adviser in their car when on-track, but are strongly encouraged to make good use of them. All levels of experience can request the support of an adviser but priority is given to the first-timer groups.

If you are not a first-timer participant please indicate on the form if you would like to make use of the advisers on the day so that we can make appropriate arrangements to support your request.
